2

Lecture Objectives

- Understand how to access html style libraries
- Understand the concepts used by html generation tools and libraries

© Robert Kelly, 2001-2017

What is Bootstrap?

- Free front-end framework for faster and easier web development
- Includes HTML and CSS based design templates for typography, forms, buttons, tables, navigation, modals, image carousels and many other, as well as optional JavaScript plugins
- Gives you the ability to easily create responsive designs

Responsive web design is about creating web sites which automatically adjust themselves to look good on all devices, from small phones to large desktops

© Robert Kelly, 2001-2017

Your First Bootstrap ...

```
<!DOCTYPE html>
<html lang="en">
                                              HTML5 element to allow the width
<head>
                                                  to follow the device width
  <title>Bootstrap Example</title>
  <meta charset="utf-8">
  <meta name="viewport" content="width=device-width, initial-scale=1">
  <link rel="stylesheet"</pre>
href="https://maxcdn.bootstrapcdn.com/bootstrap/3.3.7/css/bootstrap.min.css">
  <script
src="https://ajax.googleapis.com/ajax/libs/jquery/3.3.1/jquery.min.js">
  </script>
  <script
src="https://maxcdn.bootstrapcdn.com/bootstrap/3.3.7/js/bootstrap.min.js">
  </script>
</head>
                                           Uses Bootstrap css and
                                             JavaScript libraries
                                 © Robert Kelly, 2001-2017
```

... Your First Bootstrap

```
<body>
<div class="container">
  <h1>My First Bootstrap Page</h1>
  This part is inside a .container class.
 The .container class provides a responsive fixed width container.
  </div>
                 My First Bootstrap Page
</body>
</html>
                 This part is inside a .container class.
                 The .container class provides a responsive fixed width container.
                              © Robert Kelly, 2001-2017
```

Bootstrap Styles

- Bootstrap sets default styling for HTML5 elements
- For example, headings have a default style

h1 Bootstrap heading (36px)

h2 Bootstrap heading (30px)

h3 Bootstrap heading (24px)

h4 Bootstrap heading (18px)

h5 Bootstrap heading (14px)

h6 Bootstrap heading (12px)

7

Libraries of Visual Features

- Bootstrap includes a library of symbols (glyphicons) that provide a more interesting visual appearance to a GUI
- Bootstrap provides a library of badges (numerical indicators of the number of items associated with a link)

© Robert Kelly, 2001-2017

Templates

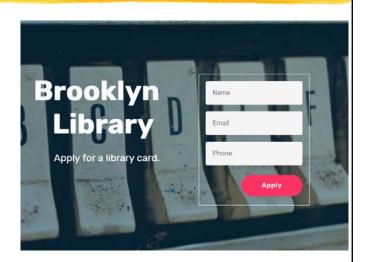

- A predesigned Web page that let's authors customize with user specific content
- Bootstrap provides the code for some free templates
- You can just copy a template that is similar to your desired GUI appearance, then customize

© Robert Kelly, 2001-2017

9

Site Builder Example - Mobirise

 Desktop tool that provides drag and drop generation of Bootstrap sites

© Robert Kelly, 2001-2017

Example - Generated HTML

Notice how it uses Bootstrap styling

© Robert Kelly, 2001-2017

- 11

Approaches to HW2

- Use Bootstrap templates
- Use a page builder tool (e.g., Mobirise)
- Download the Brooklyn Library html, convert to HTML5 and clean
 - Convert to HTML5 you can use a free tool or just convert the DOCTYPE tag
 - Remove blank lines
 - | Remove JavaScript | Less than 400 lines of html | <script> elements | if you take this option | Attributes e.g., onclick="..."
 - Remove hidden form fields (<input type="hidden" ...)
 - I Change action attribute value of form tag to any static page

© Robert Kelly, 2001-2017

Are We on Track?

Download the partial CSE336 project page at

www3.cs.stonybrook.edu/~cse336/CSE336-Project-Track.html

- Apply default Bootstrap styles
- Compare visual appearance

Hint: Bootstrap JavaScript library not required

Library Card Application

Complete this application and click the Submit button. You may pick up your new card at any branch library or Central Library or have the card mailed to you. In order to activate your card, you must visit your library in person and provide acceptable ID.

* Required

Library Card

Card: Young Adults (Ages 13 - 16)

Adult (Ages 17 and over)

Seniors (Ages 62 and over)
Submit Library Card Application

13

Were We on Track?

Insert the following tag in the head element of your html

<link rel="stylesheet"
href="https://maxcdn.bootstrapcdn.com/bootstrap/3.3.7/css/
bootstrap.min.css">

© Robert Kelly, 2001-2017

Have You Satisfied the Lecture Objectives

- Understand how to access html style libraries
- Understand the concepts used by html generation tools and libraries

© Robert Kelly, 2001-2017
