CSE/ISE 300
Requirements for Paper 3 Code Appendices

Your source code appendix is a key requirement for the code documentation of paper 3. The code must be in a fixed-width font, such as Courier New. Each line of code must be numbered. The code text and line numbers must use a font point-size between 8 and 10.

If the code appendix that you submitted with paper 3 was poorly formatted, for a higher grade, email a doc or docx copy of your newly reformatted appendix (only the appendix) to both smunson@cs.stonybrook.edu and lw@ic.sunysb.edu. Your email Subject line must be: 300 revised code.
